

Happy Memorial Day!

Did you know that military veterans sometimes find themselves homeless?

When that happens, there's HOPE Adult Shelter and Recuperative Care.

Ask Allen---this incredible veteran of the Vietnam War found himself in a difficult situation and lost his housing. HOPE is sheltering him and providing Allen and other veterans like him with assistance to secure housing and other supportive services so that Allen can live his life in his own home and not a shelter.

All of us at HOPE Shelter and Recuperative Care send a heartfelt thank you to all of our military personnel and veterans.

To all of their friends and family, HOPE thanks you for sharing your loved one

with America so that we can be free.

All of us at HOPE have the incredible privilege of serving military veterans who find themselves unsheltered, and helping them find their way home. Please give your special veteran a hug from all of us at HOPE.
